New Hours of Operations for Williamson County & Cities Health District Public Health Centers

The Williamson County and Cities Health District has changed the hours of operations for its four Public Health Centers (PHCs) to better accommodate scheduled appointments for clients, walk-in services, and utilize available staff and resources. As of June 9th, all PHCs in Round Rock, Georgetown, Cedar Park, and Taylor will be open Monday through Thursday from 7:30 am until 5:30 pm and one day a week until 7:00 pm. On Fridays, all PHCs will operate from 7:30 am to 11:00 am. All medical services are by appointment only and can be set up by calling a local PHC. Walk-in services will be provided as time allows and based on staff availability. Routine medical or emergency care is NOT provided at the PHC sites. Clients, who do not have health insurance and need help to find a primary care physician, can call the nearest PHC to get assistance in finding a medical home.

WCCHD Public Health Center days with extended hours are listed below:

**Cedar Park Public Health Center**, 350 Discovery Blvd., Cedar Park, TX  
Monday, Wednesday, Thursday - 7:30am - 5:30pm  
Tuesday - 7:30am - 7pm
