Williamson County and Cities Health District Included on Influenza Vaccine Honor Roll

Williamson County and Cities Health District (WCCHD) has been accepted for inclusion into the Immunization Action Coalition’s (IAC) Influenza Vaccination Honor Roll. The accomplishment is due to the Health District’s efforts to provide a safe environment for all clients by mandating annual influenza immunization for all employees. Those individuals who have not received influenza vaccine are required to wear a surgical mask when in any public areas.

The IAC Influenza Vaccine Honor Roll recognizes hospitals, medical practices, professional organizations, health departments, and government entities that have taken a stand for patient safety by implementing mandatory influenza vaccination policies for healthcare personnel.

The Honor Roll represents the champions who have taken the lead in mandating influenza vaccination within their organization.

The Immunization Action Coalition works to increase immunization rates and prevent disease by creating and distributing educational materials for healthcare professionals and the public that enhance the delivery of safe and effective immunization services. View the list at www.immunize.org

The Williamson County and Cities Health District was organized in 1989 under a cooperative agreement between Williamson County and local member cities. The mission of the Williamson County and Cities Health District is, in partnership with communities, to protect and promote the health of the people of Williamson County.
