FOR IMMEDIATE RELEASE

September 17, 2019

September is Preparedness Month - Get Involved by Joining the Medical Reserve Corps

No one can predict when the next emergency will occur, but you can be prepared. The Williamson County Medical Reserve Corps (WilcoMRC) is a team of medical, non-medical, public health, and other Williamson County-area volunteers who are interested in helping educate, prepare, and protect our growing communities. Volunteers assist in promoting wellness, safety, and preparedness throughout the county.

“Volunteering is a great way for residents who may be new to the area to meet their neighbors, or long-time residents that just want to give back to the community,” said William Hendon, WilcoMRC Unit Leader. “The training opportunities are also a valuable benefit for those interested in expanding their preparedness knowledge.”

Medical Reserve Corps is a partner program of Citizen Corps, a national network of volunteers dedicated to ensuring hometown security. Citizen Corps, along with the Corporation for National and Community Service, and the Peace Corps are all part of the President’s USA Freedom Corps, which promotes volunteerism and service throughout the nation.

Learn more about joining the Williamson County Medical Reserve Corps by visiting the WilcoMRC Volunteer webpage at www.wcchd.org.

The Williamson County and Cities Health District has provided public health services to Williamson County since 1943. Learn more about Your Public Health Department at www.wcchd.org.
